

VFI CAMPUS

The Irv & Roz Schnitzer Gratitude Missions

VFI Campus trips are a tribute to the life and legacy of Irv and Roz Schnitzer, life-long advocates and supporters of the State of Israel.

ISRAEL DISCOVERY PROGRAM

VFI Campus is excited to announce our all-new Israel Discovery Program, a 12-day experience for young adults ages 18-28 combining volunteer work on an IDF base working alongside Israeli soldiers with touring some of Israel's most popular destinations.

In the first week, you'll volunteer on a military base, learn about Israeli culture, history, the Israel Defense Forces, and hear from hi-tech industry leaders.

Over the intervening weekend, you will hike Masada at sunrise, swim in the Dead Sea, visit Beer Sheva for a cyber event and enjoy Shabbat on a kibbutz.

In the second week on base, you will learn about Israel's challenges on the international stage and receive tools to help defend the Jewish homeland when you return home.

This incredible journey will end with a visit to the Fauda Base, established by former special operations and intelligence commandos to give you a sneak peek into the mysterious and action-packed world of Israeli undercover operatives.

Join other college students and young adults from around the world on our next program January 1-12, 2023, or form your own group of 15 or more.

The cost of \$750 is paid directly to Sar-El - our partner organization in Israel. If accepted into this limited VFI Campus program you will receive reimbursement of up to \$1,000 to offset your airfare and travel expenses upon completion of the program.
